Ali Bayramli, Senior Software Engineer

Location: Baku, Azerbaijan Phone: +994773183356 Email: bayramliialii@gmail.com
alibayramli.github.io/me github.com/alibayramli linkedin.com/in/alibayramli

Senior Software Engineer with 8+ years in the field and a strong focus on full-stack development, building web applications and developer-focused solutions. Skilled in internal developer platforms, automation, and improving DevEx.

SKILLS

- Frontend: Angular, React, TypeScript, JavaScript, NgRx, RxJS
- Backend and APIs: Node.js, Python, PostgreSQL, REST APIs
- Developer Platforms: Backstage.io, Software Templates, Service Catalogs, Golden Paths
- Cloud and CI/CD: Docker, Kubernetes, Helm, Argo CD, Terraform, GitLab CI/CD

WORK EXPERIENCE

XM.com

Senior Software Engineer Mar 2024 - Present

- Design and maintain Backstage.io software templates that automate provisioning, configuration, and access management, saving ~3,000 engineering hours monthly.
- Lead golden paths, scorecards, and catalog workflows for a Backstage.io IDP within an engineering organization of 1,000+ developers.
- Mentor and onboard new team members, helping them become productive across the codebase and tooling.
- Build custom Backstage plugins with the Azure AI SDK to validate catalog metadata.

Technologies: Backstage.io, TypeScript, React, Node.js, Python, PostgreSQL, Azure AI SDK, EKS, Helm, Terraform, Argo CD, GitLab CI/CD

Senior Angular Developer Oct 2023 - Mar 2024

- Contributed to Angular architecture for Trading.com's multi-region launch across Europe and Australia; built high-throughput UI kits for a leading forex broker.
- Defined reusable Angular component APIs and integration guidelines, helping developers build consistent interfaces across trading applications.

Technologies: Angular, TypeScript, NgRx, Signals, RxJS, JavaScript, Internationalization (i18n)

Morgan Stanley

Angular Developer Sep 2021 - Sep 2023

- Implemented responsive data grids and real-time UI updates with Angular and AG Grid.
- Contributed to migrating 15+ legacy desktop apps to modern web applications, eliminating broker-side installation and delivering firm clients a modern wealth management experience.

Technologies: Angular, AG Grid, RxJS, Jenkins, Jest, Karma, Jasmine, BitBucket

ExxonMobil

Full-Stack Developer May 2018 - Aug 2021

- Built a gamified employee engagement dashboard with Vue.js and Node.js.
- Helped reduce ~$100K in annual third-party tooling costs by moving email generation and styling to an internally maintained web platform.

Technologies: Vue.js, Node.js, Vuex, MongoDB, Amazon S3, SharePoint APIs

PERSONAL PROJECTS

Template Pulse

Built a Backstage plugin with React and Node.js to track software template adoption, success rates, and execution times, with searchable run history and permission-based access.
GitHub: alibayramli/template-pulse

LANGUAGES

English - Fluent | Azerbaijani - Native | French - Intermediate

EDUCATION

Eötvös Loránd University Computer Science BSc (2017 - 2021)
